Are you aged 16 – 21, enthusiastic and looking for a career in Logistics?

Logistics Apprenticeships

That Play Station game you urgently ordered for your friend Dave's birthday on e.bay.
Was it the Right game? Was it delivered to the Right place? Was it delivered at the Right time - in time for Dave's birthday?
This all involves logistics in the planning and transportation. If this is the sort of job you would be interested in doing then Logistics is a career for you!
Britain's Logistics industry needs highly motivated, young individuals who are keen to carve out a career for themselves as logistics specialists.

JOIN THE HIGHLY SUCCESSFUL LOGISTICS OPERATION OF DEXTRA GROUP PLC.

Our in house logistics operation boast to be the best performing in the lighting industry with our in house fleet operating throughout the UK and Europe.
During your apprenticeship you will gain practical training leading to a Logistics Operations Level 2 Qualification.

During the apprenticeship you will spend time working in the transport office learning transport planning of goods and resources including driver scheduling. Time will also be spent in the warehouse looking at planning, stock control, and general warehouse operations which will include gaining your Forklift Licences in both Counterbalance and Reach.
At the end of your apprenticeship there will be opportunities to remain in the Logistics Departments working for the Warehouse or Transport, including the opportunity to further train as a van or LGV lorry driver.
With this logistics experience there may also be opportunities to move into other areas of the business.
