

DEXTRA GROUP - THE
LEADING UK LIGHTING
MANUFACTURER

Dextra
GROUP PLC

A horizontal bar composed of several colored segments (yellow, green, purple, red, white) is located below the company name.

DEXTRA GROUP - THE LEADING UK LIGHTING MANUFACTURER

DEXTRA GROUP IS THE LARGEST INDEPENDENTLY OWNED UK LIGHTING MANUFACTURER

Dextra Group plc has been committed to British lighting manufacturing for over 40 years, never shifting its emphasis from the importance of producing quality lighting products on British soil, to deliver an industry leading service to our clients.

The company's ongoing commitment to 'Made in Britain' and investment in the finest UK lighting manufacturing equipment available, will help to boost the economy, promote innovation, reduce its carbon footprint and supply local jobs, even while others have been turning to cheaper foreign imports.

As the largest privately owned UK lighting manufacturer in the country, designing and manufacturing lighting products, both standard and bespoke, from our purpose-built factory in North Dorset, distributing them via our own fleet of vehicles and offering a recycling service to clients in line with current WEEE legislation as a registered AATF.

UNRIVALLED SERVICE

From our inception, service, in its true meaning, has been our mantra and investment in the finest UK lighting manufacturing equipment and facilities has helped the company to reach and maintain that goal.

The introduction of LED components was seen as a great opportunity and the resulting investment has placed Dextra Group at the forefront of the UK lighting industry for both standard and special products.

Our substantial mixed fleet of liveried vehicles, many with mounted forklifts for fast unloading where a client's facility may be limited, is the last link in our JIT systems.

"The company's ongoing commitment to 'Made in Britain' and investment in the finest UK lighting manufacturing equipment available, will help to boost the economy, promote innovation, reduce its carbon footprint and supply local jobs, even while others have been turning to cheaper foreign imports"

Rupert Martin | Dextra Group Chairman

DEXTRA GROUP - THE LEADING UK LIGHTING MANUFACTURER

CONTINUAL INVESTMENT IN UK LIGHTING MANUFACTURING

The recent addition of two new Salvagninis with the latest metal working technology, Aluminium Processing and 3D Commercial printing facilities enhances the already impressive array of cutting edge manufacturing equipment.

This supports the company's 'just in time' manufacturing ethos and enables the design and manufacture of exciting and innovative new product ranges.

Our commitment to investment in UK manufacturing places the company at the forefront of the British lighting industry.

A PROUD MEMBER OF THE MADE IN BRITAIN ORGANISATION

Made in Britain brings together the best in the British manufacturing community, united with the use of the registered collective mark.

The mark is protected and can only be used by members of Made in Britain that meet the criteria they set to guarantee the member is a British manufacturer.
